published today interviews with various ambassadors who are now in El Paso for the coronation ceremonies. The American ambassador, George W. Guthrie, is quoted as calling attention to the fact that the invitation of foreign envoys to attend the ceremonies is without precedent. America is rightly proud to dispatch her envoys to the coronation. Mr. Guthrie said, and desires permanent friendly relations with Japan. The ambassador added he was proud of the mission entrusted to him by President Wilson.

ARRANGEMENTS MADE FOR FUNERAL OF GENERAL HOWE

Washington, Nov. 9.—Arrangements were completed today for the funeral of Brigadier General Walter Howe, U. S. A., retired, who died here yesterday from ailments incident to old age. Interment will be in Arlington National cemetery Thursday with full military honors.

General Howe was actively engaged in the suppression of Indian uprisings in the Dakotas and also saw service in the Philippines. He was a native of Indiana.

NEW HAVEN HEADS IGNORED ADVICE OF ATTORNEYS

Testimony at Trial of William Rockefeller Tends to Show
Mellen Disregarded Opinion
of Choate.

New York, Nov. 9.—Testimony that the New York New Haven & Hartford railroad acquired control of the Central New England railroad, a competitor, in the face of legal advice that it might be in violation of the Sherman law was adduced today at the trial of William Rockefeller and ten other former directors of that road, accused of criminal violation of that law.

The advice was given, according to letter read in evidence, by the late Charles P. Choate of Boston, a New Haven attorney. He reminded Charles E. Mellen, president, that the Northern Securities case was at that time, 1894, still pending in the courts, and said that he was not in favor of "doing anything that might be in violation of the Sherman law."

Nevertheless the New Haven president sent a letter a month later notifying William Rockefeller that he had bought control of the Central New England for the New Haven.

The next day Rockefeller wrote back to "minutely corroborate" him. "I feel sure you would secure it at any price," he added.

N. M. E. A. TO HAVE BEST MEETING IN HISTORY, IS STATED

Secretary J. H. Wagner Declares Convention to Be Held Here November 22-25 Will Be Record-breaker.

IMMENSE ATTENDANCE INDICATED BY LETTERS

Teachers Coming Even From Arizona to Participate in Activities of State Educational Association.

That the coming convention of the New Mexico Educational association would be the best that body ever held, from the standpoints of excellence of program, attendance and work accomplished, was the prognostication today of J. H. Wagner, secretary of the association and superintendent of the Santa Fe schools. Mr. Wagner declared that he felt the attendance at the meeting would include fully 1,500 bona fide teachers, beside great numbers of people who were interested in educational work and who would attend the meeting.

The program, the secretary asserted, likely would be generally admitted to be the best ever by everyone as soon as the first two or three sessions had been held. It included, he said, more speakers and better speakers than had ever been obtained before. He spoke in especially complimentary terms of the science section, whose program is to be particularly elaborate and exhaustive, and of the school peace section, which he laughingly declared would "settle the European war."

A feature of the convention will be the attendance of several educators from Arizona, Secretary Wagner announcing the receipt of several letters from educators of the sister state declaring their intention of attending.

While all the convention details could not be announced yesterday, Secretary Wagner made it plain that there would be a good many changes from methods pursued in the past. There will be a change in the method of admitting teachers to the different programs, for instance, admission tickets being issued at the time of registration instead of forcing dependence upon the badge as in former years.

It was difficult for door-keepers to find the badge of the association among the number of county boasting badges the teachers inevitably wore, Mr. Wagner said, "and naturally they did not like to stop those whose badges they could not see at once. There will be a metal badge this year, of course, but it will be for souvenir purposes, not as an admission card."

Voting will be by ballot, as was the case last year, and the polling place will be in the high school building, where all the section meetings will be held. The polls will be open Tuesday morning.

Mr. Wagner indicated that it was likely some means of giving each registered member a ballot at the time this admission cards were given out would be followed, perhaps having the ballot and admission card printed on the same material and separated by perforating so the ballot could be torn off. Whether printed ballots will be used, bearing the names of the nominees, was not known today.

In regard to the display of exhibits Mr. Wagner said the outlook was good for a fine lot of entries. J. W. Gilmer, principal of the local high school and chairman of the exhibit section, has sent the following letter to county and city superintendents. Mr. Wagner said:

Competent judges, to be appointed later, will judge the exhibits at the coming convention. Awards will be given for the work that secures the approval of these judges.

It is most important that every school which will make an exhibit write the chairman of the committee on exhibits at once, stating the class to which its exhibits will belong and the amount of space required.

The classification of exhibits will be as follows: (a) County District; (b) County High Schools; (c) City Grade schools; (d) City High Schools; (e) State Normal; etc.; (f) U. S. Government Schools; (g) Parochial Schools.

Committee on Exhibits

H. R. Larkin, railroad secretary has reported to Mr. Wagner, the secretary stated, that all the roads in the state had given a single-fare round trip rate to the convention, except the Denver & Rio Grande, which gave a rate of a fare and a fifth. Owing to the reduction of rates on this road a short time ago, however, the fare and fifth offered this year is less than last year's rate.

The program of the science section of the New Mexico Association for Science has been issued by Dr. Charles T. Kirk of the university, chairman of that section. It is as follows:

Monday, November 22.
8:30—Annual presidential address: "Mathematics as Applied to Biology"; Professor C. P. Humphert, State College.

10:30—The Mineral and Fuel Resources of New Mexico; Professor Charles T. Kirk, university. (Maps and illustrations.)

10:30—Subject to be selected, M.

CONTRIBUTIONS ARE SOME OF REASONS DISAPPOINTINGLY SLENDER; FUND \$4000 SHORT

Delusion That Civic League
Needs No Bigger Donations
Than \$1 Chills Collection
Campaign.

MANY GIVE, BUT IN AMOUNTS TOO SMALL

Canvass May Not Be Continued
Tomorrow, but \$5,000 Is
Needed and Citizens Are
Urged to Send Cash.

Up to 3 o'clock this afternoon the whirlwind campaign for the benefit of the charity fund of the Civic Betterment League had netted \$1,996. That was \$1,000 short of the mark at which the canvassers aimed. It was hardly likely at that time that the \$1,000 sought would be obtained today.

There were many contributions, but they were for small sums. In some way a general impression had gone abroad that the society asked only \$1 of each contributor. No such limit was placed on the contributions, and the idea was never in the minds of those who organized the campaign. It is necessary to have \$5,000 for the fund, and \$1,000 is what the league is after, in sums as great as the contributors can afford to give.

It may not be deemed expedient to continue the campaign tomorrow, but there is no reason why those who can afford to give to the fund should wait because no one calls upon them personally to contribute. If the money is available those who have contributed today should send \$10, \$15, \$25, \$50, \$100, as much more as they please and their circumstances warrant to the Civic league.

Fifteen committees scoured the city for contributions today. As noted, they got many small contributions. The largest sum contributed was \$100, given by a woman who already had given \$250 to the league during the year. Her example is the one the league officers want to see followed.

WHY BASEBALL LOST MONEY IN 1915

Secretary John H. Farrell Pre-sents Annual Report to Na-tional Association of Profes-sional Baseball Leagues.

SEASON DISASTROUS FOR LITTLE LEAGUES

Fifteen Out of the Forty
Which Started Did Not Com-plete Season; Bad Weather
a Feature.

San Francisco, Cal., Nov. 9.—Many interesting details in connection with the professional baseball season of 1915 which, for many reasons, was non-productive of financial benefit to those most closely identified with the national game, were included in the annual report of Secretary John H. Farrell which he presented at the annual meeting of the National Association of Professional Baseball Leagues here today.

A resume of the business transacted by the National Association during the year showed that forty minor league organizations embracing 2
